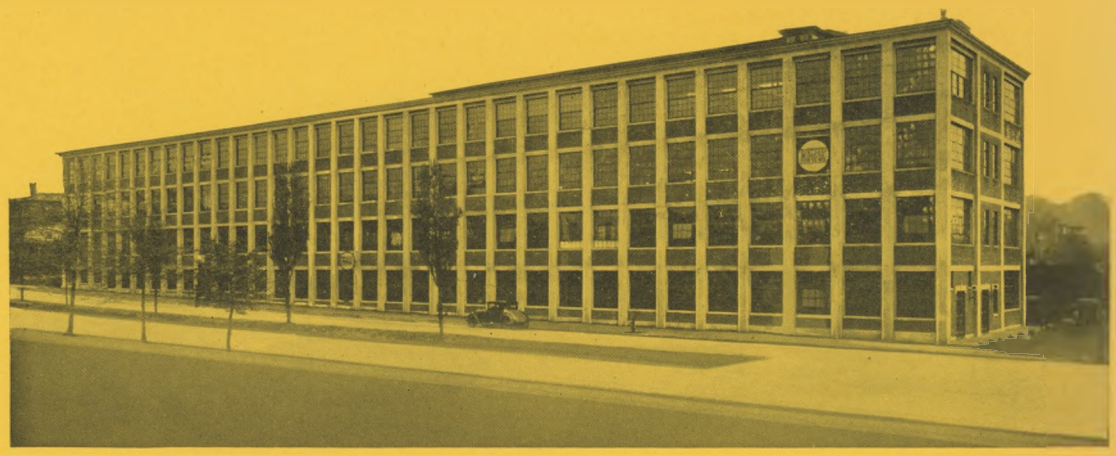
STEVENS WALDEN
INCORPORATED



In presenting this new catalogue Stevens Walden, Inc. is offering a complete selection of wrenches, tools, and boxes, to the mechanical trades.

Combining attractive appearance with the finest materials and workmanship helps to keep famous a name that has been known for almost a half century as a manufacturer of the highest quality tools obtainable.

In this catalogue you will notice no fancy gadgets whose usefulness is limited, no startling designs to obscure structural defects, no flashy plate to cover up poor materials . . . but you will find strong, honest tools designed for long life and hard wear.

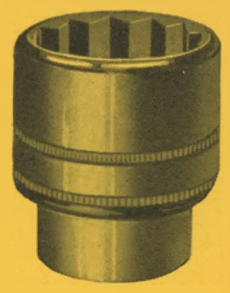
5140	1 1/4	5156	1 3/4



No. 5128 to No. 5156

RATCHET WRENCH

A real heavy duty ratchet. Note the tapering design from head to handle. Built for hard service and tough usage.

No. 5176 — Ratchet Wrench

No. 5176

SWIVEL HANDLE

One of the finest designs in wrench handles. The female broach in the handle end permits its use with various length handles.

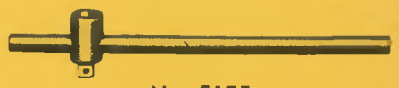
No. 5177 — Swivel Handle

No. 5177

TEE HANDLE

The sliding tee handle is particularly adapted to close quarters and offset locations.

No. 5175 — Sliding Tee Handle.



No. 5175

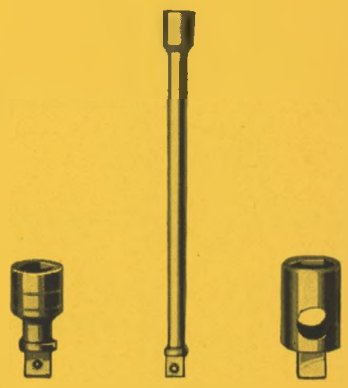
EXTENSIONS AND ADAPTORS

Make your own special wrench with these extensions and adaptors.

No. 5183A — 3" Extension.

No. 5188 — 8" Extension.

No. 5183 — Offset Adaptor.



No. 5183A No. 5188 No. 5183

RATCHET PLUG

The ratchet plug enables you to reverse the action without sacrificing any of the strength of the Heavy Duty Ratchet Handle.

No. 5178 — Ratchet Plug.

HANDLES

REVERSIBLE RATCHET

The most efficiently designed Reversible Ratchet sold today. Strains are cleverly transferred to the wrench itself thus avoiding the danger of sheared pins.

No. 2816 — Reversible Ratchet Handle.

SWIVEL HANDLES

Unusually flexible, the Walden Worcester Swivel Handle combines the best features of tee, swivel, and offset handles. Friction head keeps the handle steady in any position.

No. 1151 — 16" Swivel Handle.

No. 1152 — 10" Swivel Handle.

RATCHET HANDLES

Two fine, sturdy handles. **No. 916** contains all features of **No. 2816** except the reversing mechanism. **No. 1133** is still the strongest ratchet wrench made.

No. 916 — Ratchet Handle and Plug.

No. 1133 — Spark Plug Ratchet.

SPEEDER BRACES

The Speeder is the ideal handle for fast work. Ideally suited for assembly lines.

No. 1115 — Short Shank Speeder Brace.

No. 1119 — Long Shank Speeder Brace.

No. 1154 — Swivel Head Speeder Brace.

TEE HANDLES

The sliding crossbar provides maximum leverage and the assortment of different length handles will reach the hard-to-locate nut.

No. 1134 — Long Shank Sliding Tee Handle, 20".

No. 1127 — Medium Shank Sliding Tee Handle, 12".

No. R-1106 — Short Shank Sliding Tee Handle, 6".

No. 1111 — Sliding Tee Handle Offset.

No. 1122 — Conventional Tee Handle.

PRINTED IN U.S.A.

WALDEN WORCESTER SOCKET WRENCHES

½" SQUARE DRIVE TOOLS

DOUBLE HEXAGON THIN WALL SOCKETS

These thin walled sockets are heat treated to maximum strength. Even under severe, daily usage they last indefinitely without "rounding" of the clean sharp broached surfaces.

Number	Size	Number	Size
1812	3/8	1825	25/32
1814	7/16	1826	13/16

WALDEN WORCESTER WRENCHES

SPINTITE WRENCHES

The wrench that works like a screwdriver. Spintites (Trade Mark Registered) are production assembly tools but so reasonable in price that anyone can afford a complete set.

Everyone needs the Spintite set — the industrial plant, the radio shop, the electrical shop, the automobile, motorboat or aircraft mechanic.

This original Walden Worcester design is another popular example of a tool to do a better job.

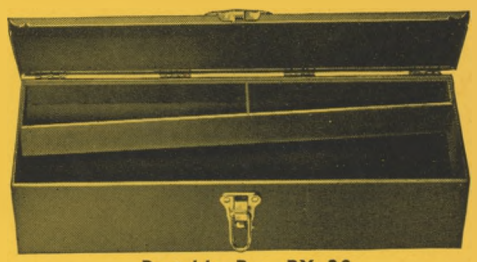
WALDEN WORCESTER STEEL TOOL BOXES

The patented construction of Stevens Walden steel boxes is outstanding in many features. Designed to protect the tools they contain, these boxes are unusually rigid and many times stronger than the ordinary tool box.



Portable Box BX-20

PORTABLE BOX BX20

Made of heavily reinforced steel. Built in tray for socket and small tools. Size 6¼ x 20½ x 5. Weight 6½ lbs.

BX-20 Closed

DOG COOP BOX BX30

A portable box that withstands all sorts of abuse. Hook on a padlock and it becomes a miniature safe. Removable tool carrier inside. Size 21½ x 9 x 11. Weight 15 lbs.

"Dog Coop" BX-30

BULL'S EYE CHEST BX29

A heavy gauge steel chest for the mechanic who prides his equipment. Detachable back tray, large lower compartment and steel drawer. Drop front puts all tools within easy reach. Size 12 x 13 x 27½. Weight 60 lbs.

TOTE TRAY BX27

Heavy gauge tray specially designed to stand rough usage. Reinforced edges and a handle that a man can stand upon. Size 18 x 9 x 3.

BX-30
Closed

ENGINEERED BOXES

The box should be worthy of the machine it serves. The boxes shown on this page are only examples of what we can do to house your tool kit or machine in up to date fashion.

Our Processed Steel Boxes have no unfinished edges or corners and no ugly rivets. They are neatly and permanently electrically welded and enamelled in attractive colors.

Engineered Boxes will be made to fit your tools or prints. Or if you prefer, we will design a box for you. Distinctive features of construction will help build the prestige of your product — AND you will have to pay very little if any more for them than wood boxes — very often they cost less.

No. T-115

PISTON VISE

A quick acting, powerful vise for securely holding pistons and other cylindrical objects without danger of marring or crushing. The four contact points are babbit lined and the adjustable feature will extend the range of the vise to 5½" diameters.

No. T-115 — Piston Vise.

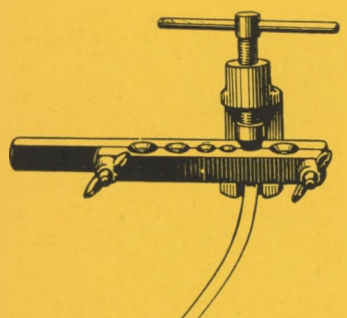
No. T-116 — Set of V-Shape Hardwood Jaws to fit Stevens Vise, for Straight Jaw uses.

No. T-44

PISTON RING TOOL

Will remove and apply any piston ring of any diameter or width and with any kind of cut or joint. Will replace all rings on any piston in less than a minute.

No. T-44 — PISTON RING TOOL



No. T-178R

FLARING TOOL

Improved design for all diameters of tubing from 3/16" to ½". Spinning attachment forms a perfect flange on tubing. Easy to use in cramped spaces without removing tube from car.

T-178R — Flaring Tool with Spinning Cap Attachment.

T-178A — Spinning Attachment Only.

T-177 — Flaring Tool and Punch.

No. T-187

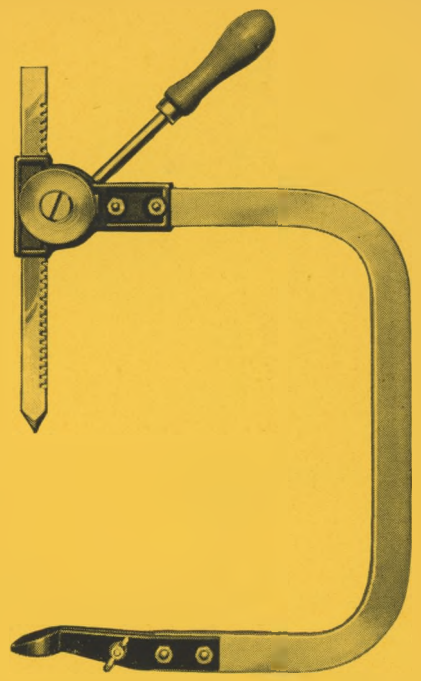
SUCTION VALVE GRINDER

Rubber cup grips top of valve. Large diameter handle for slow speed, heavy pressure and small diameter handle on top to spin valve for finish seating.

T-187 — Valve Grinder.

PRINTED IN U.S.A.

STEVENS WALDEN AUTOMOTIVE SUNDRIES



T-286A
VALVE LIFTER

The Friction Clutch makes this the best Valve Lifter. Holds the spring in a positive grip but is easily moved by levers.

Leaves both hands free. Is just as useful in REPLACING valve springs — no Clips required.

No other lifter can compare with this Exclusive Stevens Walden Lifter.

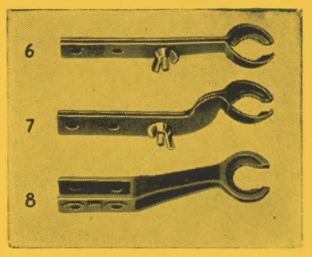
T-286A COMPLETE WITH STANDARD JAW

ADDITIONAL JAWS

Number 6 — Standard Straight Jaw.

Number 7 — Offset Jaw.

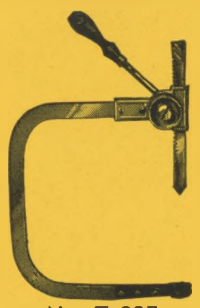
Number 8 — Jaw.



HEAVY DUTY LIFTER

For bus and truck operators, as well as for tractors, diesel engines, and all large power installations. Don't break up weak tools when this Heavy Duty Lifter will do the job without trouble.

No. T-287 — Complete with Standard Jaw.



No. T-287

SPECIAL CADILLAC-LA SALLE VALVE LIFTER

These are the tools you need for all Cadillac and LaSalle motors for 1936 to 1941 inclusive.

The friction head of any Stevens Walden Valve Lifter can be used with the J-257 frame.

J-257 — Special Lifter Complete.
J-257X1 — Frame Only.
J-257X17 — Jaw Assembly.
J-257X12 — Valve Lock Removing Unit.
J-257X18 — Assembly for Valve Lock Replacing.
J-827 — Valve Bracket Cluster Assembling Pan.
J-1055 — Valve Stem Length Gauge.
